

**POSTHARVEST REGISTERED ACTIVES**

**HIGH-VOLUME WATER APPLICATION**

| Active ingredient (formulation)                | FRAC     | Target   | ppm        |
|--|----------|--|------------|
| 2,4 D Sodium Salt (25 SL)                      | PGR      | Plant Growth Regulator (PGR). Prevents abscission of the calyx | 250        |
| Thiabendazole (500 SC)                         | 1        | Stem-end rot, Green and Blue mould                             | 1000       |
| Imazalil as sulphate (750 SG)                  | 3        | Green mould, Blue mould  | 500        |
| Propiconazole (250 EC)                         | 3        | Sour rot, Green mould, Blue mould                              | 600        |
| Guazatine (210 SL)                             | M7       | Sour rot, Green mould, Blue mould                              | 1000       |
| Pyrimethanil (400 SC)                          | 9        | Green mould, Blue mould  | 1000       |
| Pyrimethanil<br>Propiconazole (150<br>+120 EC) | 9<br>3   | Sour rot, Green mould, Blue mould                              | 750<br>600 |
| Azoxystrobin (250 SC)                          | 11       | Green mould, Blue mould, brown rot                             | 1125       |
| Fludioxonil (230 SC)                           | 12       | Green mould, Blue mould  | 600        |
| Azoxystrobin<br>Fludioxonil (240+240<br>SC)    | 11<br>12 | Green mould, Blue mould  | 600<br>600 |
| Imazalil<br>Pyrimethanil (400 SC)              | 3<br>9   | Green mould, Blue mould  | 500<br>500 |
| Sani-D range                                   | NC       | GRAS chemical  |            |
| Peracetic acid                                 | NC       | Disinfectant   |            |
| DDAC (120 SL)                                  | NC       | Disinfectant   |            |
| Clove Oil 10 %                                 | 46       | Disinfectant   |            |
