

A community happily receives nutritious oranges

Orange Heart FRUIT DRIVE

A call for donations

Let us all unite in the fight against hunger. By Sive Silo

Last year, the Citrus Growers' Association's (CGA) Orange Heart Fruit Drive was launched under its Orange Heart banner, in response to dire socio-economic needs emanating from the lockdown. And the initiative has certainly grown wings since.

After citrus growers within the CGA had donated approximately 1 500 tonnes of fruit last year, it soon became clear that the needs far exceeded what the CGA had initially reckoned. And the ramifications of the COVID-19 pandemic are still being felt in many households.

It's for this reason that the CGA is set on continuing its Orange Heart Fruit Drive in 2021. Donations in the form of any fruit will be welcomed. Organisations, farms or growers willing to donate to help with this worthy cause are invited to contact Sive Silo, Project Coordinator, at sive@citrusacademy.org.za for more details. 🍊
