

Note from the Managing Director

The Citrusdal facility has wrapped up its production of inputs for moth rearing for the year. As the final batches of large-scale rearing reach completion, XSIT is gearing up for an essential phase of deep cleaning and extensive maintenance. Additionally, we will increase the size of the egg pan room to ensure we have enough capacity to meet the demands for all relevant products going forward. Changes are also happening at both the Addo facility and at head office to ensure that virus and microbial production get off to a smooth start in the next season.

Well done to all the production teams for a season where products were always available to meet demand.

CHEERS, ROB

Team Spirit in Full Force at the 2024 Corporate Triathlon Challenge!

The IRONMAN African Championship has been held in Port Elizabeth for many years and is a major event on the city's calendar.

This event challenges participants to swim 3.8 kilometers in the sea, cycle 180 kilometers, and then tackle a full marathon of 42.2 kilometers. While professionals typically complete this in about 8 hours, amateurs must finish by midnight after starting around 7 am, totaling up to 17 hours of continuous exercise!

For those seeking a less daunting challenge and a great team-building opportunity, the Corporate Triathlon Challenge is the way to go.

This year, River Bioscience entered 4 teams for the 380 meter swim, 18 kilometer cycle, and 4.2 kilometer run. Who knew we had so much hidden athletic talent right under our roof.

Great effort from all those who participated and who supported the teams!

	Team 1 CRYPTOGRAN	Team 2 MULTIMAX	Team 3 TRICHOMAX	Team 4 CRYPTOMAX
Swim	Michelle 5.04	Khaalid 5.28	Khalipha 8.25	Andre 5.11
Transition	1.49	5.15	1.34	2.14
Bike	Rob 39.47	Khaalid 45.52	Jeaninne 58.34	Theunis 47.46
Transition	0.24	0.27	0.33	0.39
Run	Sima 20.35	Thando 18.14	Sipho 18.13	Eben 32.12
Total	1hr07.42	1hr15.17	1hr27.21	1hr28.05
