July 2024

Keeping all RBX Group Stakeholders Informed

Note from the Managing Director

There is no doubt that things change quickly these days and the standard planning / budget cycle for RBX is in November to January each year. This is in preparation for our new financial year that starts in April. The key issue with this timing is that RB only starts its main sales in September so there is a large gap between planning and implementation. For the first time the management will be presenting a revised budget, using latest information and trends, to the RBX board during July to assist us to go into the season with a more up to date plan.

CHEERS, ROB

BerriesZA Symposium

Our team had an opportunity to be a sponsor at the BerriesZA Annual Technical & Trade Symposium which was held on 30 and 31 May 2024 at Ashanti Estate, Paarl. The sponsorship included an exhibition stand where we could display our relevant products to berry growers and stakeholders.

The two-day event provided attendees with a range of high-quality presentations, ample networking opportunities, and reconnecting with peers. The speakers and thought leaders at this year's event were praised for sharing valuable insights on current trends, research findings, and industry updates with nearly 400 attendees.

Opportunities like this are so important for our company to ensure relevance and networking within the industry.

Hortgro Technical Symposium

Our South team connected with industry stakeholders at the bi-annual Hortgro Technical Symposium that took place 3 - 6 June 2024. We gained more insight into the business and technical strategies within the pome fruit industry which in turn will help us with our CodlMax distribution.

July Birthdays
